In order to re-claim the original registration number of a motorcycle, you must obtain forms V765 and V55/5. Fill in both of the forms and send them to me.

Please note that the Taxation Classification is HISTORIC.

You must send me, a minimum of one of the following The Old Style Log Book RF 60, VE 60 or other archive documentation showing a link between the frame number and the registration number, an original Sales Invoice or authenticated archive record as supplied by the original issuing county council. These I will copy and authenticate and they will be returned to you. **I will also require Rubbings of the Frame and Engine Numbers together with two photographs of the numbers showing their position on the bike/engine**, along with a cheque made payable to The British Two Stroke club Ltd, full club member's £15.00 part or non-members £25.00

If you do not have any of these you will not be able to reclaim the original registration number. An old number plate is not sufficient to confirm machine identity.

An Age Related Number is available if we can establish the motorcycle is genuine and the date of manufacture, or estimated year of manufacture.

You must also send to me **Two Photographs of your machine**, preferably showing the registration number fitted to the machine, the bike must be in a recognisable as a motorcycle, it does not have to be running but photographs of boxes containing parts is not acceptable. One of the pictures should have the following statement on the reverse.

I have inspected this motorcycle on (insert date of inspection)

Address where inspected _____

I confirm that it is exactly as seen in this photograph

The Engine Number is _____

The Frame Number is _____

Date _____

Signature _____

Name _____

Address _____

Status _____ Telephone Number _____

This must be completed by an independent fully paid up member of the BTSC Ltd or a person who would be eligible to fill in the reverse of your passport. Police Officer, Doctor, Local Councillor, MP etc, you cannot inspect your own vehicle.

Yours sincerely
